

An Update from the Administration

March 28, 2022

Greetings, RPS Community!

We hope our students and families are doing well. Please join us tonight, March 28th, for the next Board of Education meeting at 7 p.m. at Abraham Clark High School in the Large Gym at 122 E. 6th Ave. Please remember that masks are still required when entering school buildings. Additionally, the meeting will be streamed virtually.

Now, let's talk about what's been going on in the District.

The Kindergarten Success Academy welcomed amazing moms, aunts, grandmothers and some female community leaders for a wonderful Women's History Month celebration last week. The day included a Zumba workout session, arts and crafts, massages and a luncheon.

"We at the KSA want all of our families to know how special they are. During Women's History Month we felt it was important to honor the women who help our students thrive," said Principal Sheila Williams.

At Dr. Charles C. Polk Elementary School, the Annual Career Day was such a great success. The students dressed for success and learned from several visiting professionals. The presenters were our Superintendent of Schools Dr. Fisher, an Animal Behaviorist, Chiropractor, Police Officer and Firefighters, Electrical Engineer and a Graphic Designer just to name a few. Principal Harry said she was elated by the wonderful feedback from her students!

In January, the Harrison Elementary School Student Council began a service learning project which fueled plans to initiate a food drive to benefit Josephine's Place, a drop-in space dedicated to women for the purpose of empowerment.

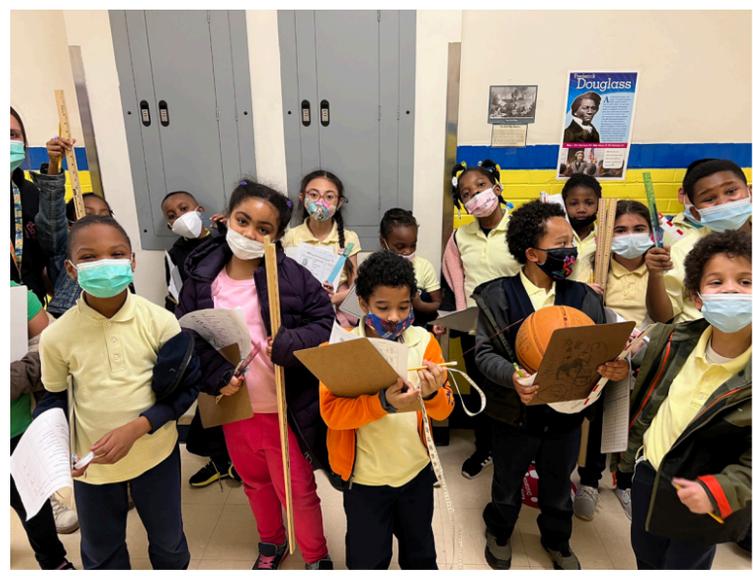

The student council set a goal to collect 300 non-perishable food items and came up with an idea to incentivize student support with a movie day.

"Harrison superstars exceeded the 300-item goal and collected over 500 non-perishable food items that we recently donated, and students are looking forward to movie day. Way to go, HES Stars," said Acting Principal Wayne Bullock.

Washington Elementary School's second grade scholars ventured outdoors on an exciting S.E.L. scavenger hunt to practice measurement and data analysis skills. Students applied their knowledge of inches, feet, yards, graphing and a wide array of other math and science skills, while enjoying the spring air and collaborating with their treasured classmates.

"This engaging exploration underscores the importance and long-term value of hands-on learning with real-world applications," said Principal Marianne Tankard. "Washington is dedicated to providing ongoing cross curricular and collaborative activities which enhance our scholars' problem-solving skills and provide them with a solid foundation for future success in STEAM."

Leonard V. Moore Middle School held another successful Virtual Science Fair and announced the winners last week. Congratulations to some of our future scientists: 1st place winner Alejandro Temich, 2nd place winner Jonael Sala and third place winner Luis Fernandez.

A huge congratulations to the Abraham Clark High School Band and Grace Wilday Junior High School dancers who rocked the stage at the New Jersey Devils game on March 22nd at the Prudential Center. Performing in front of complete strangers, we are proud that students showed dedication and professionalism to their craft through this performance. Go Roselle!

As always, please continue to follow @RoselleSchools and /Roselle Public Schools on Facebook for the latest and greatest RPS news.

Stay Roselle Strong, and remember we focus on **"Every Student Everyday!"** because **"All Students Matter!"**

DR. NATHAN L. FISHER
Superintendent of Schools

DR. LISSETTE GONZALEZ-PEREZ
Assistant Superintendent
